Also, revise to disclose how you calculate ARR.

2. Please provide appropriate context regarding your disclosure on page 54 that you have "millions of happy users." Include a definition of user in the prospectus summary where the term is first used. Explain the time period in which the number of users was counted and explain how you calculated the number. To the extent material, disclose how the number of users compares with the total number of hosts and customers.

3. Please tell us why the number of shares outstanding after the offering excludes the Class A common stock that will be issuable upon conversion of the convertible promissory notes. In this regard, we note that such notes will automatically convert into common stock upon the IPO if not previously converted.

If so, include a quantified discussion of such metrics for each period presented and describe how each is calculated. Refer to Item 303(a)(3)(ii) of Regulation S-K and Section III.B.1 of SEC Release No. 33-8350.

9. You disclose that the increase in revenue was primarily attributable to the addition of new customers, an increase in users and sales of additional services to existing customers. Please revise to quantify the relative contribution of each of these factors. Refer to Item
10. Please provide us with a breakdown of all equity awards granted to date in fiscal 2019 including the fair value of the underlying common stock used to value such awards as determined by your board of directors.
